

## ABOUT ALCAT

- Privately held US based biomedical lab
- 20 years in business
- FDA Inspected and Registered
- CLIA Inspected and Licensed
- Robocat II
- Awarded 3 Patents
- 20 Labs, 20 Countries, 6 Continents

## ABOUT THE ALCAT TEST

- Whole Blood test that detects food and chemical sensitivities or intolerances
- Measures delayed reaction over the course of several hours after exposure
- Pathways include Immune, Non-Immune, Pharmacologic, Toxic
- Measures the final common pathway of all mechanisms
- Sensitivities/Intolerances are not **IgE** mediated
- Measure changes in size/volume of WBC
- Indication of Cellular Inflammatory Response

## WHY ALCAT?

- Proven, effective results
- Measures a real-time biological response
- Results are available online within 73 hours
- Over 300 different foods, chemicals and molds for testing
- Nationwide Patient Referral Network
- Customized rotation meal plan provided with each result
